

Comprehensive Specific Smart

Have you thought about where you need to improve your facility?

We are interested in what you need, which is why we develop really smart business systems. The VCare system is specifically designed to help achieve improvements in a wide range of areas within the aged care industry.

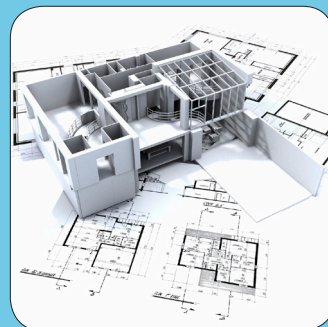

See what we have to offer and find out why our software is used by New Zealand's largest aged care residential providers. Talk with us today for a free, no obligation consultation.

With the VCare System...

- Streamline residents care, with integrated Care Plans
- Manage occupancy of beds, rooms, villas, serviced units and apartments
- Simplify and automate billing
- Manage prospective residents and waiting lists
- Enhance the decision making process with easy access to relevant management reports
- so much more...

What is VCare?

VCare is cost effective, dynamic, comprehensive and specifically built to meet the demands of the growing aged care market. The VCare system is a key management tool for villages, care centres, rest homes and aged care facilities, designed to reduce administration time and maximise the time spent caring for residents.

The VCare system encompasses 4 key areas of your resthome, village or aged care facility, including:

Care

At the heart of any aged care facility is the quality of care for its residents. To achieve this high standard of care, a large amount of information is required. VCare allows comprehensive details to be recorded providing a complete picture of both a residents care history and their current and future care needs.

Care Plans include:

- Care Plans
- Complaints, Compliments & Incidents
- Assessments, Weights and Measures
- Progress Notes
- much more...

Financials

While the major focus of an aged care facility is the care offered to residents, often a large amount of time is needed to manage the funding and subsequent billing of the resident's care. VCare provides features to reduce this administrative overhead ensuring that managers are aware of the funding and billing status of their residents.

Financials include:

- Management Fees
- Village Fees
- Residential Funding and Billing
- Account Integration
- much more...

Occupancy

In order to run a successful facility, managers must pay close attention to their occupancy. Combined with the sales and marketing features, VCare allows managers to proactively manage their facility ensuring their occupancy rates are kept high.

Occupancy includes:

- Waiting Lists and Holds
- Admissions
- Unit Contracts
- much more...

Marketing

The initial contact with residents often occurs months if not years before they move into a facility. VCare offers comprehensive Customer Relationship Management features allowing the management of both marketing and sales activities.

Marketing includes:

- Document Handling
- Prospect Management
- Sales and Marketing
- much more...
